

Electrolux Modular Static Preparation

Worktops without upstand-800/1400

The Electrolux Modular preparation range allows Professional caterers to design the preparation area of their kitchens providing heavy-duty specifications and features, high hygiene standards and extremely flexible modular functions. The modular design of the range is in line with our high benefit guidelines making it possible to combine worktops and sink tops with ambient, hot, refrigerated and freezer units (with solid hinged doors or special smooth telescopic drawers), offering big storage space thanks to its various lengths. The units are 700 mm deep with a work height of 900mm (710mm big storage inner space, 40mm sturdy worktops and 150mm adjustable oversized feet with optional clipping plinth). The models detailed on this sheet are 7 worktops without upstand with a length from 800 to 1400 mm.

121128

MATERIALS

- Worktop in AISI 304 stainless steel CrNi 18/10 40 mm high, 15/10 (16 gauges) thickness.
- 18mm under panel made of sound deadening material according to E1 European specifications.
- Front and rear longitudinal stainless steel c-channel reinforcement, 15/10 (16 gauges).
- Special shaped front and rear profiles, without burrs, to avoid water leakage on the underneath modules.

INSTALLATION

- Worktops, for a work height of 900 mm, can be mounted on the following:
 - a solid bracket.
 - a solid bracket plus 50x50mm legs.
 - 710 mm ambient, hot, refrigerated and freezer units, with hinged doors or telescopic drawers, placed on oversized (65x65mm), 150mm high feet (0/+90mm adjustable in height).

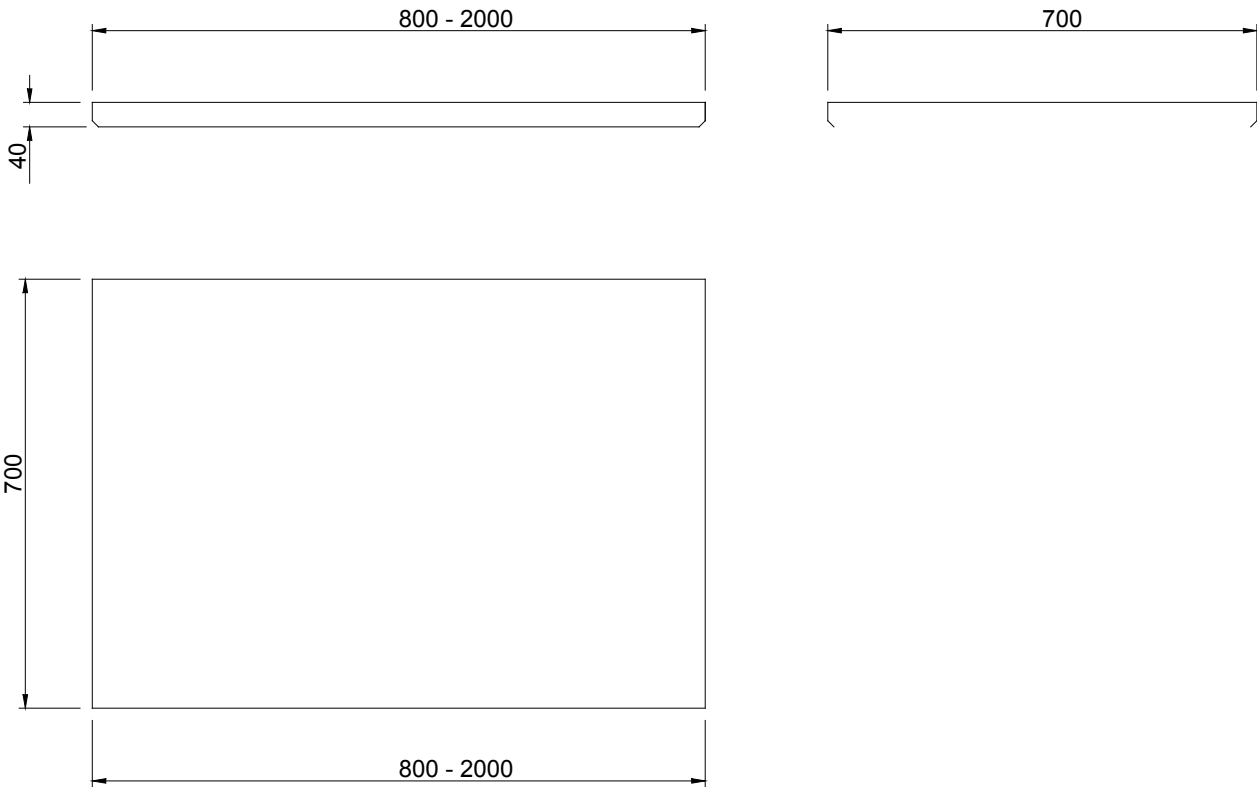

CLEANING

- Extremely easy to clean thanks to the large and smooth seamless surface with Scotch-Brite finishing.
- 4 corners fully welded and shapely polished in order to guarantee perfect cleanability.
- All models comply with the strict international standards regarding hygiene and cleanability.
